

the Slate 2

THE PLEASURE OF PAPER. THE POWER OF DIGITAL. FINALLY UNITED.

The Slate is destined to all creatives, illustrators, drawers and doodlers as well as pencil and paper lovers who wish to keep the natural and unparalleled feel of their pen gliding over paper while benefitting from the endless possibilities of digital technology. Your sketches are instantly reproduced on the screen of your tablet or computer using a ring around your pencil.

FREE YOUR IDEAS, WHEREVER YOU WANT, WHENEVER YOU WANT.

The Slate was designed for mobility. With its A5 format, the Slate remains light and compact for you to carry wherever you go. The Slate can be used in 2 different modes: with a screen by connecting the Slate to your device (via Bluetooth for iPad and iPhone, via USB for Mac and PC) and in screenless mode thanks to its integrated battery allowing 8 hours of continuous use. In screenless mode, all your drawings are automatically saved in the internal memory of the Slate with a capacity of 8GB (+800 000 sheets).

BASED ON SCIENCE. NOURISHED BY YOUR CREATIVITY.

The technology that lies beneath the Slate is based on 20 patents and more than 70 years of research and expertise in magnetism brought by the Commissioner of Atomic Energy (CEA)*. We used this technology to put the power back in your hands as an artist to interact with the digital world using your favorite tool: your own pencil.

**The CEA was ranked by Reuters as the most innovative research organism in the world in 2016.*

HOW DOES IT WORK?

1. You draw on paper laid on the Slate using your pencil equipped with a magnetic ring (the Ring).
2. As soon as you start drawing, 32 sensors track down the exact position of your pen provided by the ring.
3. The Slate communicates with your device and generates a real time digital version of your drawing on your screen.

ESSENTIAL PACK TECHNICAL SPECIFICATIONS

PRODUCT REGION	Europe	US	UK
MSRP	€169 EUR	\$169	£169 GBP
PRODUCT DIMENSIONS (W x D x H)	186 x 267 x 7 mm		
PACKAGING WEIGHT	1,2 kg		
PRODUCT EAN	3760261070019		
PACKAGING DIMENSIONS (W x D x H)	233,5 x 332,35 x 45 mm		
MASTER PACK Qty	6		
MASTER PACK WEIGHT	8 kg		
MASTER PACK DIMENSIONS	360 x 285 x 255 mm		
SYSTEM REQUIREMENTS	PC (Window 7 and later) Mac (Yosemite 10.10 and later) iPad Air (1 & 2), iPad Mini (3, 4 & Retina), iPad (3 & 4), iPad Pro iPhone (6, 6S, 6 plus, 6S plus, 7 & 7plus) ** iOS - iOS 9 minimum** Available USB port Internet connection to download Imagink App and updates		
PACKAGING CONTENTS	<ul style="list-style-type: none"> • One Slate • One black Pen • One drawing pencil equipped with a ring • One sketchpad • Two clips • One USB charging cable 		
PRODUCT WARRANTY	Two years		

TARGET MARKET

- «Early Adopters» new technology buffs
- Active youth / students
- All creatives attached to paper formats and traditional tools
- Professionals in need of an intuitive digitization solution and content enrichment

KEY POINTS OF THE PRODUCT

THE SLATE

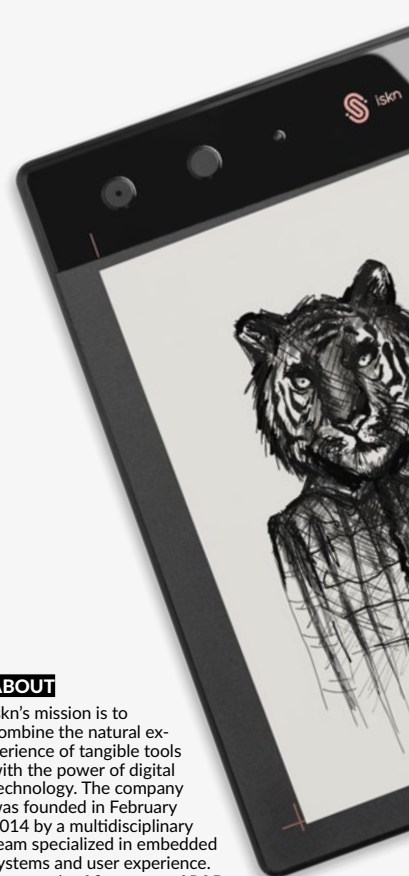

- The perfect companion for all creatives
- Ergonomic design for right or left handed people
- A5 digitization format for creativity in mobility
- Wireless Connection on tablet through Bluetooth Smart
- 2 modes: with a screen, connected to a device or without a screen in stand-alone mode
- internal storage of 8GB
- Programmable buttons for custom shortcuts (Coming soon. Currently: Layer + Page)
- No need for special paper
- Graphics tablet feature available with Stylus: Compatible with any drawing software on PC & Mac

IMAGINK

- 6 brushes (pen, pencil, felt-tip, marker, airbrush, chalk and eraser) with very realistic textures
- Image import and layer management
- Replay feature to play the construction of the drawing (first stroke to last)
- Export formats: PNG, JPG, MP4, PSD and SVG (soon AI)
- Drawing animation features with the Studio Mode - Focal & Parallax effects (Coming soon)
- Compatible PC, MAC, iPhone, iPad (soon Android)

THE RING

- A removable ring compatible with many pens and pencils
- Two fastening systems for cylindrical or hexagonal pens

ABOUT

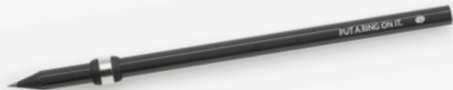

iskn's mission is to combine the natural experience of tangible tools with the power of digital technology. The company was founded in February 2014 by a multidisciplinary team specialized in embedded systems and user experience. As a result of five years of R&D in collaboration with CEA-Leti, the company develops and markets an innovative drawing pad called the Slate, which allows users to digitize and enhance their pen-and-paper creations. With 20 patents, this technology will soon be integrated into many new related products with multiple applications.

THE TIP

MAKE YOUR SLATE GRAPHIC TABLET

For anyone wishing to transform the Slate into a graphic tablet, the Tip is a pen (which does not write) designed for use directly on the Slate, Inspired by the Pen, its replaceable tip and ergonomic design offers the same authentic feel than a pencil sliding on a piece of paper.

Our tip: Use the Tip to erase your drawing or coloring on the digital version without the fear of marking your paper.
