

Powered by a single customized 21700 lithium rechargeable battery with an ultra-high capacity of 5000mAh, the light delivers a maximum output of 3,200 lumens. It uses high-quality LEDs paired with a **TIR optic lens**, providing a perfect medium and close-range illumination experience.

The Seeker 2 Pro features a large side switch located near the head of the light for comfortable thumb operation, and indicators on both sides of the switch clearly display the battery level and brightness level.

With milled finger grooves and dermatoglyphic silicone, the Seeker 2 Pro is designed for a comfortable and non-slip grip.

The Seeker 2 Pro includes a 3.9 ft/1,18m long 1A magnetic USB cable.

The provided L-dock can be fixed on a wall close to a power source for quick and easy access.

Compatible with most USB chargers, the convenient magnetic charging cable makes the light an ideal illumination tool at home, outdoors or on duty.

ONE LOOK IS ENOUGH

POWER BEYOND ITS SIZE

With a customized **5000mAh 21700** rechargeable battery comes great capability.

MAX THROW

250 meters
