

# How good becomes even better – part 2 - Olight Warrior X3

**Leading Performance:** Max 2,500 lumens, 19% higher than the Warrior X Pro, and an impressive beam distance of 560 meters. The Warrior X 3 is a powerful compact thrower.

**Glass-breaking Bezel:** Strike bezel embedded with 3 zirconium beads, great to break windows in an emergency or use as a defense tool.

**Simple User Interface:** Dual-stage tactical tail switch to access high/low output momentarily or constantly.

**Magnetic Charging:** The MCC3 USB magnetic charging cable charges the customized 5000mAh 21700 Li-ion battery. The cable magnetically snaps onto the tail cap and shows red when charging or green when it's fully charged.

**Easier to Hold:** The included Warrior Ring and silicone tactical grip ring provide better control of the light during stressful situations. The Warrior Ring even has a strike tip.

**Vibration Battery Indicator:** The vibrating low-battery indicator lets you know when the battery is low without requiring a glance.

**Improved Remote Control:** The re-engineered tail cap supports an optional dual-button magnetic remote switch for maximizing its efficiency as a WML.

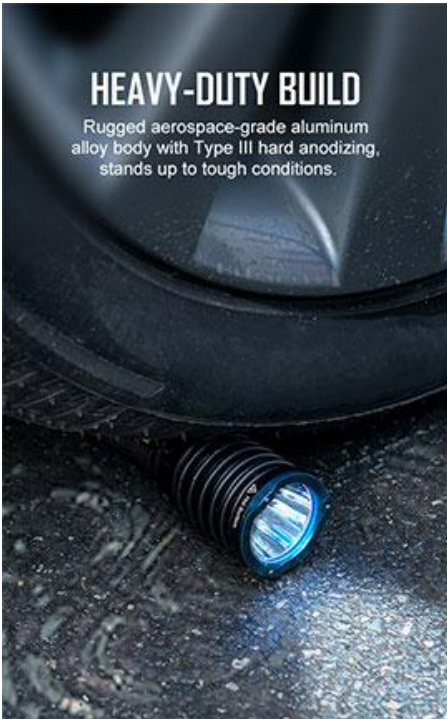

**Reliable Build:** Aerospace-grade aluminum alloy body with hardcoat anodizing (Type III), non-slip knurling, and 3mm tempered glass lens. It is resistant to 2-meter drops and rated IPX8 waterproof.

### HEAVY-DUTY BUILD
