ESL-HS5 KUGO V2
GAMING HEADSET

- 50 mm drivers
- detachable microphone
- in-line controls
- PS4 compatible
- WHITE illumination

All-black classic gets even better

Simple but powerful. Modest, but elegant. The original Kugo headset was made with quality above everything else in mind, but now we've pushed it even further to the #NextLevel.

Soft cushions

You'll forget you're even wearing it

Large and soft ear cushions will ensure a perfect fit and great sound isolation. With 2cm thick ear cushions, you will easily be immersed in the gameplay, even during longer gaming sessions.

New In-line controls For simplicity and convenience

New in-line controls with volume wheel, microphone volume and mute controls make your gaming experience even more smooth.

Upgraded Mic
Unidirectional

With the upgraded unidirectional microphone, your voice will be the only thing heard. The background noise will be reduced or completely eliminated.

Hard case
EVA material

Protective headphone case, finished in matte black, provides anti-shock and anti-scratch protection for your new headset when on the go.

Illuminated eShark logo
Be the part of the #Nextlevell

The iconic eShark logo now shines even brighter with the illumination in the white LED.
