

3dRudder

Sit down. Step up. Move beyond

Introducing effortless movement
for VR and gaming.

3dRudder.com |   @3dRudder

Movement, as it was meant to be

Based on the simple premise that using your feet is the most intuitive and fun way to get around, 3dRudder lets you move the way you're used to through worlds you've never seen.

For everyone, every PC, VR system, everywhere

No matter who you are, how you play, or what you play on, 3dRudder partners seamlessly with your system's hand controllers for a totally expanded VR movement experience.

Big moves, small controller

Slim enough to slide out of sight when not in use, 3dRudder keeps a low profile, so you don't need a dedicated room to have an amazing VR experience.

Effortless VR & gaming movement, powered by your feet.

Simple set up

It only takes a few seconds. All you need to do is plug and play.

Intelligent design

Explore the far reaches of VR, all while comfortably seated.

Plays well with others

Compatible with all PC systems, games, hand controllers, Oculus Rift[®] and HTC Vive[®].

Customizable

Dial in the 3dRudder to suit your style. Visit the support page to download our expansion pack to get mods and updates.

Built to last

3dRudder is designed and tested to withstand countless hours of use.

Easy storage

Slim enough to slide out of sight, 3dRudder keeps a low profile and is easy to store and carry with you.

Moving is believing

Totally fluid, natural and freeing, 3DRudder is based on the simple premise that your feet is the most intuitive and fun way to get around. Built for VR but incredibly practical and intuitive for everything from computer accessibility to 3D CAD, 3DRudder is defining what virtual movement ought to feel like.
