Loss prevention systems for iPhone & iPad

nio Tag

nio Tag is the world's first Bluetooth Low Energy security tag. It's Smart, which means it's compatible with Bluetooth 4.0 enabled mobile phones.

Simply attach a nio Tag onto any items you want to keep track of, or carry a nio Tag with you so you don't lose your iPhone/iPad.

Both stylish and small, nio Tag's key features include:

- Upto 4 months battery life on a single charge.
- An operational range (wireless chain) of up to 20 meters.
- Anti-theft motion sensor.
- Find my smartphone button for when you've misplaced your device.
- Rechargeable via micro-usb.
- LED indicators for status and alarm.
- Audible and vibration alerts on alarm.
- On/Off button.
- A detachable clip and leather lanyard, making nio Tag easy to attach and simple to use no matter the application.

nio Tag with detachable lanyard

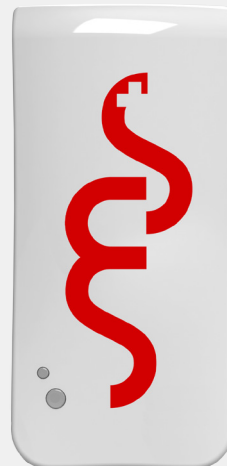

The leather lanyard is ideal for attaching the nio Tag to your key-chain, luggage, or any other item where you want to be sure the Tag cannot easily be removed.

nio Tag certifications

nio Tag is fully certified for global sale. Bluenio is also a registered member of the Bluetooth SIG.

nio Tag can be customised

nio Tag can be customised with your corporate logo. The form-factor can also be changed to match your own products look and feel.

nio Tag with detachable clip

The robust clip makes attaching your nio Tag quick and easy. The clip is ideal for placing on a bag, belt, or other item of clothing.
