

Mini WiFi Cam lc100w

lc100w, easy recording and share daily life, lite and wearable, mount everywhere. Specially designed for low intensity and general conditions, such as jogging, cycling...etc. With 4K resolution, presents you vivid images, time lapse recording feature, you can make 30 minutes to 3 minutes recording (according to your setting). The WiFi capability allows you to have live time previewing and instant share to your social media sites. Offer multiple accessories, bike mount, clip mount, waterproof case for different use.

WiFi Capability

The built-in WiFi capability allows you to connect to your mobile devices for real-time live video preview. Also download to your mobile devices for instant sharing to your social media sites.

4K Time Lapse Recording

People are curious with the process of constructions, the life cycle of flower or weather events. With lc100w you can make a film that you have never tried before.

Loop Recording

The lc100w records video clips of 3, 5, 10 or 30 minute lengths (customer selectable) to the installed micro SDHC memory card. The standard loop recording technology prevents storage overload by erasing the oldest previously recorded file and replacing it with the new one.

Small Size with a Spectacular image

The small size of the lc100w makes it perfect to memorizing every moment. The small size lc100w is equipped with 8MP CMOS sensor to capture spectacular images. If you like to ride a bike and remember the landscape of the city, country side, you'll be amazed at how the lc100w captures the vivid colors with crystal clear resolution.

Waterproof IPx5/ IPx8

lc100w with IPx5 allows you to have daily life waterproof, such as drizzle light rain or sprinkling. However, with waterproof case IPx8 you can go river trekking, swimming or snorkeling, etc.
