

PRODUCT DATA SHEET

Product Name: Lock Alarm XL 10m

Product Code: 6798

Weight: 0.8 kg

Dimensions: 18 cm x 15 cm x 5 cm

Description

The Lock Alarm XL is an extra long version of the Cable Lock Alarm ideally suited when you have many items of equipment to secure. It is also ideal for securing display merchandise inside or outside retail stores. The Lock Alarm XL has 10m (30ft) of ultra hard steel cable (which is plastic coated to avoid scratching your equipment). The cable simply passes through all the items and then locks into the main lock unit. Authorised key holders can remove items quickly and easily, however **if an unauthorised attempt is made to remove any merchandise a 120 decibel siren starts sounding**. The main Lock Alarm unit can be mounted to a wall, floor or rail using the tamper proof brackets.

Features

- 120 decibel siren helps deter thieves and attract attention
- Flashing LED to deter thieves
- Ultra hard 10 metre length steel cable (4mm diameter)
- Cable is plastic coated to avoid scratching valuable equipment
- Award winning patented technology to detect when the cable is being cut or the lock is forced
- Weatherproof - suitable for indoor and outdoor use
- Lock unit can be attached to a wall, post, side of vehicle, or directly onto bicycles or machinery
- Requires 1 x 9v battery - battery fits inside a tamper proof compartment
- Ideal for shops, rental yards, warehouses, cafes/restaurants etc.

Components

- 1 x Lock Alarm unit
- 2 x coded keys
- 1 x Wall Bracket
- 1 x U Bracket
- 1 x Set of screws & fixings (for brackets)

Materials

- High Tensile Steel
- Polypropylene with glass fibre
- Nylon
- ABS
- Mild Steel
- PCB with electronics components

Certifications: CE, RoHs and REACH

Technical Data

- Operating Temperature: -20°C to + 55°C
- Power Supply: 1 x 9v Alkaline battery
- Battery Life (standby): approximately 6 months with good quality Alkaline battery
