Are you in the need of a Motorized Flip Down from the ceiling or under a counter ?

The M Motorized Ceiling mount 32"-55" is the ideal mount for your TV installation when in need of the. Often placed in bedrooms, kitchens, offices, schools or stores it can fold your screen down or up  $-75^{\circ}$  -  $0^{\circ}$ . This under the cabinet/ ceiling mount includes a locking system to keep the screen in position and is a very practical solution supporting screens both smaller and larger, 32" to 55".

The M Motorized Ceiling mount 32"-55" is the ideal choice when you want a TV in a location where space is needed or a TV function is needed only from time to time, or for pure aesthetic reasons, creating a definite wow factor. The mounts arm length is easily adjusted to the size of your TV and will hold your flat panel safely in place and quickly fold down in position. The mount also includes a locking mechanism to safely lock your flat screen in place when flipped down, thus minimizing fatigue and vibration.

The M Motorized Ceilingmount 32"-55" uses a rapid motorized flip down transition technique with little noise. Use the included remote control or learn your standard TV remote (RC5) to fold down or flip up the TV. Multiple ceilingmounts can be controlled with one remote control, if the IR sensors of the ceilingmounts are close.

Maximum height of screen is 393mm, measured from the upper VESA hole to ceiling,
