

# Neo smartpen N2

## From Paper to Digital, Two Worlds in One Pen

NeoLAB Convergence strives to open a new chapter to the history of pen and paper.

We are a group of innovators whose passion lie in bridging analog with digital.

## Specifications

|                    |   |
|--------------------|---|
| CPU                | Dual Core ARM9 Application Processor / 128Mbytes            |
| Dimension          | 156 mm x 11.5 mm / 22 grams                                 |
| Sensor             | Pressure Sensor (256 Steps)                                 |
| Battery            | 300mAh (5Hr. Running Time) & Power Saving / 3.7V LI-polymer |
| Camera Recognition | 120 PPS / 1100 DPI  |
| Internal Memory    | NAND flash memory 90 Mbytes                                 |
| Memory Storage     | Approx. 1,000 pages   |
| Supporting OS      | Android 4.1.2 or higher, IOS 8.1 or higher                  |
| PC Connectivity    | USB 2.0 / Bluetooth 4.0                                     |
| Usage environment  | Temperature : 10°C ~ 35°C / Humidity : 30%~ 80%             |
