

Soothe you by colours, Wake you naturally at the optimal moment

Illumi Ambient Wakeup light offers a revitalising morning and cosy moments through its varying colour lightins and the tailor-made dawn alarm and dusk stimulation.

By connecting illumi to your smart phone with downloaded illumi sleep app, it monitors your sleep cycle and wakes you at a better waking moment. The ambient light features thousands of hues, you can pick you favourite for a cosy ambiance to unwind and relax, or choose one of six preset moods with blended lighting and natural sounds, each designed to evoke a different sensation in your space.. Its contemporary design enhances any home decor for holistic living.

Wake up at a better moment

When you have been awakened during a deep sleep phase, you will feel completely wrecked and your whole day can turn into one long zoobie marathon. Illumi sleep app works as a bio-alarm clock that analyzes your sleep pattern and wakes you when you are in the lightest sleep phase. Waking up in the lightest sleep phase by natural sounds and dawn simulation is a natural and cosy way to wake up where you feel rested and relaxed

388mm (L) x 380mm (W) x 396mm (H)

Shipment carton: 2 pieces per carton

G.W. per unit: 2.2 kgs

Gross weight per carton: 5,2kgs

UPC Code: 7-34811-71168-7

Product benefits

- **Wake to an energizing morning**

Sync the illumi ambient wakeup light with your smart phone downloaded with the illumi sleep app, it tracks your sleep cycle and wakes you at the optimal moment.

- **Soothing Lighting for Every Mood**

Natural lighting creates a more calming ambience that lifts the spirit and eases tensions.

- **Touchable Ambience**

Shifting lighting modes is as easy as touching the centre halo, making early mornings and sleepy twilights simpler.

- **Retreat with Sweet Natural Lullabies**

Escape the city noise with four natural music options to ease the heart and relax the spirit.

- **Sleek Design that Eclipses Traditional Lamps**

This three-in-one lighting system features an elegantly sleek contemporary design that enhances modern décor.

- **A Long-lasting Glow**

Stress less about changing bulbs, thanks to long-lasting energy-efficient LEDs.

Target audiences

- Urbanites who prefer subtle style, and the latest modern or designer trends.
- Busy executives who want comfortable lighting at home after a day under high intensity work lights.
- Families with children, who want to sleep cosily with a soft lighting system in the evening.
- Shift workers who sleep odd hours and benefit from natural lighting simulators.
- Environmentally conscious individuals who want long-lasting energy-efficient lighting options.

Additional Information

Moods for Different Moments

Select from thousands of hues for a cosy personalised ambiance to unwind and relax, or choose one of six preset moods with blended lighting and natural sounds, each designed to evoke a different sensation in your space.

| | |
|---|--|
|   | <p>Riverside Morning</p> <p>-haunting pipes call to you, along with the morning birds, as the illumi casts a sunny glow in pale early dawn silver-gold, yellow and bright golden light.</p> |
|   | <p>Gentle Rain</p> <p>-relax to the sound of falling rain, complemented by a soft jazz piano and pale, shimmering blues and lavender glowing like water on the windowpane.</p> |
|   | <p>Deep Water</p> <p>-de-stress to the sound of flowing and bubbling water, enhanced with an ambient synthesizer track and shifting shades of deep blue, aqua and pale sea-green.</p> |
|   | <p>Sunset Sonata</p> <p>-set a soothing mood with the soft sound of lapping waves, seaside birds, and a soothing piano melody, as the illumi glows in evening shades of pink, orange and gold.</p> |
|   | <p>Private Beach</p> <p>-listen to the waves lap the shore and let the gentle shifting glow of oceanic blue, cerulean and pale seafoam green carry you away.</p> |
|   | <p>Hidden Forest</p> <p>- wake to the soft, secret sound of insects and birds calling to the sun, and the cool green glow of light through the leaves, in vivid green, pale lime and bright yellow-green.</p> |
