

AIRPURIFIER CAR

Equipped with **ION.EVO 2.0** technology

The **AIRPURIFIER CAR** is equipped with **ION.EVO 2.0** technology that emits a small amount of ozone and a large number of beneficial ions, which allows it to keep the air in your car constantly clean and odor-free.

It eliminates bacteria that enter when you open windows, smoke, etc. Compact with a minimalist design, it connects to any 12 V socket.
