Aud Click™

Amazon Alexa-Enabled Portable Wifi & Bluetooth Speaker

Aud Click is a dual wireless, voice activated personal assistant. You can simply click and command to ALEXA for weather, news, timer, local shop, and much more.

You can also play music from your favorite streaming services and radio stations such as amazon music, Prime music, Spotify, tunein, and iHeart Radio.

ALEXA-ENABLED

PERSONAL ASSISTANT

JUST CLICK & ASK

Confidential

SMALL.LOUD. SMART.

Ask and Ye Shall Receive

Use your voice to command your device using dual wireless (Bluetooth and Wi-Fi) function that allows for indoor and outdoor capabilities. Whether you are home or on-the-go simply tap the microphone button and ask for music, news, search information and more with the Alexa Voice Service.

TAP.TALK. TUNES.

More music options than ever. Using the Alexa Voice Service, play songs from your own library or connect to a number of streaming providers like Amazon Music, Prime Music, Spotify, TuneIn, iHeartRadio, and more.

"Play Bruno Mars from Prime Music."

"Shuffle my Favorites playlist."

"Play Adele from Spotify"

"Play Today's Hits station on Pandora."

"Play my Missy Elliot station
from iHeartRadio."

"Play the station KEXP."

ALWAYS GETTING SMARTER.

More Than Just Music

When connected to Wi-Fi you can access Amazon's Alexa Voice Service and ask for just about anything. Hear news, set a timer, get the weather, or even order a pizza from Domino's. Other tasks include opening your garage through Garageio and requesting a ride from Uber.

"Ask Domio's for my Easy Order."

"Ask Uber to request a ride."

"What's the weather in New York?"

"Ask HuffPost for headlines."

"What do the New York
Yankees play next?"

"Ask Automatic if I need gas."
