DESCRIPTION

The Marauder Mini 2 is a compact yet powerful flashlight with five lighting configurations: floodlight, spotlight, flood + spot, red light, and side light. It delivers up to 10,000 lumens of floodlight output, while its spotlight reaches an impressive 750 meters. The combined flood + spot mode ensures both wide and long-range visibility. The red light mode preserves night vision, and the newly added side light enables convenient hands-free use. Switching between modes is effortless — the rotary selector lets you choose between the main, red, or side light, while the toggle switch seamlessly shifts between floodlight, spotlight, or both.
A tactile rotary dial provides precise brightness control for each light source. The Marauder Mini 2 supports both MCC and USB-C charging, featuring an integrated lanyard that doubles as a charging cable. With its textured silicone grip, it offers a secure hold even in wet conditions, fitting naturally and comfortably in the palm of your hand.

MARAUDER Mini 2

Palm the Power

OLIGHT

FEATURES:

- **Uncompromising Performance:** Delivers monster-level output with up to 10,000 lumens of floodlight and a 750-meter throw of spotlight.
- **Compact Body:** As a flashlight, the Marauder Mini 2 is compact, with a length of 133 mm and a body diameter of 43 mm, allowing for a firm one-handed grip and consistent high performance.
- **Five Lighting Configurations:** A bright floodlight, a focused spotlight, combined spotlight + floodlight, a subtle red light and a convenient side light deliver clarity, confidence and convenience in any situation.
- **Extended Runtime:** Powered by a 7,500 mAh high-capacity battery, it provides up to five months of runtime in moonlight mode for the side light.
- **Innovative Controls:** Features an intuitive triple-control system—rotary selector, toggle switch, and rotary knob—enabling quick and seamless switching between light modes and brightness levels.
